The Honorable Jocelyn Boyd
Chief Clerk/Executive Director
Public Service Commission of South Carolina
101 Executive Center Drive, Suite 100
Columbia, SC 29210

Re: Docket No. 2021-88-E – Dominion Energy South Carolina, Incorporated’s 2021 Avoided Cost Proceeding Pursuant to S.C. Code Ann. Section 58-41-20(A)

Dear Ms. Boyd:

Please find attached for filing clean and redline copies of London Economics International LLC (“LEI”)’s Independent Report, which includes corrections on pages 44-45 relating to Figure 13 to Figure 15.

Specifically, on pages 44-45 of LEI’s Independent Report, which was originally filed with the Commission on September 16th, 2021, text referred to Figure 13 to Figure 15 and was stated to show “DESC’s proposed Standard Offer rates for non-solar QFs over the 2022-2026 timeframe” for Summer, Winter, and Shoulder seasons, along with “average avoided hourly energy cost profiles over the relevant seasons for the 2022 to 2031 timeframe.” However, actual time-of-production data being shown in Figure 13 to Figure 15 reflects the avoided energy costs over the 2022-2031 timeframe, rather than DESC’s proposed Standard Offer rates for 2022-2026 as the text states. To correct for this typographical error, LEI’s attached Independent Report has updated the data being used in Figure 13 to Figure 15 to match the text description, using DESC’s proposed Standard Offer rates for non-solar QFs over the 2022-2026 timeframe, and has updated the average avoided hourly energy cost profiles to also reflect the 2022-2026 timeframe.

If you have any questions or need additional information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "AJ Goulding", written in a cursive style.

AJ Goulding
